

Datasheet

Product Number **NBR-0330**
Revision Number **RN5.9**

Product Name	Human Netrin 1 Antibody (NP137, Research Use)
Size	100ug; 1mg; 5mg; Bulk
Background	NP137 is a "first-in-class" humanized monoclonal antibody targeting the Netrin-1 ligand, a secreted protein recently described as a driver of tumor initiation and progression. NP137 demonstrated anti-tumor activity as a single agent in several pre-clinical models of cancer, including breast and lung cancer.
Target	Netrin 1
Appearance	Transparent liquid
Expression System	CHO
Isotype of Ab.	IgG
Molecular Weight	~150kDa
Storage	Long term: -20°C - -80°C; Avoid repeated freeze-thaw cycles.
